PREFACE

By its very nature a supplementary is not something new but rather an adjunct or continuation of the parent volume. Supplements were issued from time to time to the Gazetteer volumes published in the old series. The object of issuing such supplementaries to the District Gazetteers is to update the statistical data contained in the parent volume.

The second revised edition of the Jhansi District Gazetteer was published in 1965 by the Gazetteers Department. The present volume is intended to supplement the information contained in the revised edition by more recent statistics. Every attempt has been made to bring the statistical data as up-to-date as possible.

My thanks are due to Sri Rudra Shekhar Misra, Editor, and to Sarv Sri Sunderlal and Chandra Prabhakar Sharma, Team Leaders among Compilation Officers of whom Sri Sunder Lal has since retired, for their valuable assistance in this work. I am also thankful to the other staff members of the office for their association in the preparation of this volume.

I will be failing in my duty if I do not express my thanks to Dr. P.N. Chopra, M.A., Ph.D., Editor (retd.) Central Gazetteers Unit, Ministry of Education, Government of India, New Delhi, as also the editorial staff of the Unit for their effective role in planning and co-ordinating the work of preparation of the Supplementaries. The Unit scrutinised the Tables of this Supplementary with great care and made several helpful suggestions.

The information and statistical data contained in the Supplement is based on the Census publications for the years 1961 and 1971 and the various official records maintained at the office of the collector and district magistrate and the district offices of numerous departments of the Central and State governments to whom my sincere thanks are due.

TABLE IX

Co-operative Farming Societies

The co-operative farming societies were established in 1950. The co-operative farming societies in the district are of two types—joint and collective.

In joint co-operative farming societies, members have their own land, but they cultivate the land jointly.

In collective co-operative farming societies land belongs either to State Government or Gram Samaj. The society has the ownership of land and the society cultivates it collectively.

The district has 32 co-operative farming societies, of which 30 societies are joint and 2 are collective co-operative farming societies. At present as many as 29 societies are defunct and only three are functioning, the details of which are given in the following statement :

Name of society	Location	Number of members	Area under cultivation (in ha.)	Name of crops grown	Total produce (in Quintal)	Total income (in Rs)
Amraukh joint co-operative farming society.	Amraukh	19	62	Wheat and other food-grains	20,300	18,400
Janta No. 1 joint farming society	Jaura	24	65	Wheat, Jowar, other food-grain	9,673	6,765

TABLE X

Agricultural Implements And Machines

The following statement gives the number of agricultural implements and other agricultural machines in the year 1960-61, 1965-66, 1970-71, 1975-76 and 1978-79 :

Name of Implement	number of implements				
	1960-61	1965-66	1970-71	1975-76	1978-79
Ploughs	54,852	56,356	65,341	63,398	64,686
Tractors	87	149	13	611	731
Oil engines	381	784	1,059	2,162	2,403
Electric pumps	47	63	332	246	324
Sugar-cane-crusher (worked by power)	1	6	57	4	4
Sugar-cane crusher (worked by bullocks)	48	40	277	22	23
Oil seed crushers	357	313	99	195	115
Threshers	61	84	202	322	413
Others	—	—	—	1,596	—

Due to poverty the farmers of the district are generally not in a position to buy power-driven implements. Most of them use bullocks for agricultural operations. A few well-off farmers have now started using tractors.

TABLE XI

Famines, Floods And Droughts

In the year 1978 the district had heavy rains. Due to water logging and floods as many as 859 villages were affected. The floods and waterlogging took 11 human and 2,685 cattle lives. About 15,100 houses were ruined completely and partial damage was done to 33,019 houses. The total area affected was 2,25,327 ha. out of which 1,24,743 ha. was ploughed area. Besides, 8 bridges, 4 roads, 8 schools and one dam were damaged. The total loss was estimated at Rs 4,02,21,814.

Relief measures were taken on a large scale. As many as 1,828 persons and 4,339 cattle were rescued and sent to safer places. The following statement gives some details of relief given :

Item	Amount (in Rs)
<i>Takavi</i>	12,50,000
<i>Tpkavi</i> for seeds, fertilizers	9,00,000
Gratuitous relief	1,15,000
Special relief	15,000
House building grant	58,52,000

Next year (1979-80) the district suffered from want of rains and was in the grip of severe drought. Almost all the sources of water were dry. Both the crops—Kharif and Rabi suffered hundred per cent loss. Such

a severe drought had never occurred during last several decades. The sources of water were dry to such an extent that there was a problem of drinking water in the district for both human beings and cattle.

Relief measures included free distribution of 15 kg. of wheat per head per month among 3,473 destitutes of the district from November 1979 to September 1980.

Under "food for work programme" 37 link roads measuring 90 km. were constructed, 177 ponds and 815 wells were deepened and cleaned, one *bundhi*, (culverts) 10 Scheduled Castes houses, 4 fish aquariums and one *gul* were constructed. About 8,634 t. wheat and 871 t. of rice were distributed among labourers.

Out of 859 villages 334 villages had shortage of drinking water. In these villages 123 handpumps were installed, 135 wells were deepened and blasted and 815 wells were deepened and cleaned.

An amount of Rs 21,99,016 was distributed as distress and agricultural *takavi* among 16,841 needy and eligible persons, and other expenditure on relief measures included Rs 3,04,750 as gratuitous relief and Rs.1,44,053 as special assistance.

TABLE XII

Plantation Schemes

An attempt is being made to increase the wood land by extensive plantation schemes inside as well as outside the forest area. During the last decade intensive plantation has been done in 2,400 ha. of forest area and 200 km. of road -side avenues, the details of which are given as under :

Name of plantation scheme	Site	Area (ha.)	Main species

MEDICAL FACILITIES

There were 32 allopathic medical institutions in the district in 1977, which provided a total no. of 1,088 beds. The establishment of the Maharani Laxmi Bai Medical College and Hospital, at Jhansi in 1966, which has 300 beds, is an important milestone in the efforts being made to increase medical facilities in the district. Medical facilities have been extended to the rural areas with the opening of primary health centres in the district. Each centre has four beds, two medical officers and a large para medical staff. In 1978-79 the community health scheme was introduced and a community health visitor has been appointed for each 1,000 of the population. The visitor is trained to render first-aid and preliminary treatment with the help of a medical kit and reports the outbreak of epidemics (if any) to the primary health centre.

The following statement gives the location of each primary health centre :

TABLE II

ADMINISTRATIVE SET-UP

In July, 1973, the department of medical and public health was reorganised abolishing the posts of the civil surgeon and the district medical officer of health. Under the new set-up, a chief medical officer has been appointed, who heads the entire medical, public health and family planning set-ups in the district. The three deputy chief medical officers supervise all district level hospitals, Employees, State Insurance Scheme, dispensaries, school health dispensaries and primary health centres.

The district is divided into three administrative regions for medical and public health purposes and each region is administered by one deputy chief medical officer since 1977.

Out of the total of 32 allopathic medical institutions, only 4 institutions were run by private bodies. As many as 175 beds are available in these institutions.

Sanitation and Public health

The deputy chief medical officers exercise control and supervision over all health programmes, primary health centres, and rural dispensaries, located in his jurisdiction. They are also responsible for the collection of intelligence about epidemics, checking of food and drug adulteration and also for providing necessary assistance during the floods, and other natural calamities and the outbreak of epidemics. They are assisted by one assistant medical officer at the district headquarters and one to two medical officers in each primary health centre. A team of para-medical officials work under the medical officers.

For public health and sanitation work every local body has its own staff of sanitary inspectors, vaccinators, etc. Each Gaon Sabha is responsible for village sanitation. The services of sanitary inspectors are available to the Gaon Sabhas for technical help and guidance. The *pradhans* (village headmen) also report outbreak of epidemics to the primary health centres,

FAMILY PLANNING AND CHILD WELFARE

The chief medical officer exercises supervision over the maternity and child welfare, family planning and nutrition programmes in the district. He is also assisted by 3 deputy chief medical officers and a team of medical officers, extension educators, midwives and *dais* (untrained midwives) and health visitors.

The family planning measures were introduced in the second-half of the fifties in the district. The concept of a small family is being spread through films, placards, posters, radio and television and personal contacts. There are eight family welfare centres in the district attached to the primary health centres, and three sub-centres are attached to each family welfare centre.

The following statement gives the various measures undertaken in the district to implement family planning schemes :

MALARIA

The national malaria eradication programme was initiated in December, 1962. The programme has been implemented in three phases, i.e., spraying of D.D.T. over the whole district for destroying mosquitoes and insects; maintenance phase and the surveillance phase. These two operations involved detection of malaria cases by collecting blood smears from all over the district and spraying of D.D.T. in areas where malaria was in vogue. Persons suffering from malaria are given radical treatment.

A team comprising a district malaria officer, two assistant malaria officers, 8 malaria inspectors, 22 sanitary inspectors, 8 laboratory technicians and others are engaged in the scheme. The team works under the over-all supervision of the district chief medical officer.

The following statement gives the incidence of malaria since 1961 :

ERADICATION OF SMALLPOX

The national smallpox eradication scheme is in vogue in the district since 1962. Before the implementation of the scheme, the assistant superintendent of vaccinations, posted at Jhansi and assisted by a team of sanitary inspectors and vaccinators, was held responsible for the control of smallpox. He worked under the over-all supervision of the district medical officer of health.

In the first two years of the national smallpox eradication scheme efforts were made to vaccinate the entire population of the district. The phase was known as "attack phase". At present the chief medical officer is in charge of the scheme and is assisted by three deputy chief medical officers, a team of doctors, sanitary inspectors and vaccinators. There is one vaccinator posted in each of the local bodies.

The incidence of smallpox was considerable in the closing years of the sixties and 523 and 147 persons died of smallpox in 1967 and 1968 respectively.

The following statement indicates the number of vaccinations undertaken in the seventies :

PROHIBITION

The government launched the scheme of imposing prohibition in the State in 1978. Under this scheme many districts of the State were declared 'dry' areas. Though prohibition was not extended to this district, the efforts of the social workers continued to make the people conscious of evils attached with the use of liquor and other intoxicants.

A temperance society is functioning in the district. It consists of officials and non-officials and it works through publicity, persuasion and social contact. The temperance activities include the focussing of public attention on the evil effects of drinking and indulging in other intoxicants through the medium of film shows, exhibition of posters and playcards, cinema slides etc.

PUBLIC LIFE AND VOLUNTARY SOCIAL SERVICE ORGANISATIONS

Vidhan Sabha (Legislative Assembly)

For the general elections of 1967 the district was divided into six constituencies, viz. Mehroni, Lalitpur, Jhansi, Babina, Mauranipur and Garautha. The constituencies of Lalitpur and Mauranipur were reserved for the members of the Scheduled Castes. Forty six candidates contested the elections, of whom six each belonged to the Congress and the Bhartiya Jan Sangh, four to the Communist party, two each to the Praja Socialist party and the Republican party, one from Samyukta Socialist party and twenty-five were Independents. The Congress won four seats and the remaining two went to the Bhartiya Jan Sangh.

The following statement shows the number of candidates, the seats won and the total valid votes secured by each political party and the Independents at the general elections of 1967 :

The Vidhan Sabha, constituted after the general elections was dissolved on February 25, 1968, due to a large number of defections among the members which forced the government to submit its resignation. The State was placed under the President's rule, and a mid-term poll was held in 1969.

For the mid-term elections of 1969 the number of constituencies remained six as before—Mehroni, Lalitpur, Jhansi, Babina, Mauranipur and Garautha, two constituencies of Lalitpur and Mauranipur being

reserved for the members of Scheduled Castes. Thirty-five candidates contested the elections, of whom six each belonged to the Bhartiya Jan Sangh, the Bhartiya Kranti Dal and the Congress, three to the Samyukta Socialist party, two each to the Communist party and the Mazdoor Parishad, one each from the Hindu Mahasabha and the Republican Party and eight were Independents. The Congress won three seats, Bhartiya Jan Sangh two and the remaining one went to the Bhartiya Kranti Dal.

The following statement shows the number of candidates, the seats won and the total valid votes secured by each political party and the Independents at the mid-term elections of 1969 :

For the general elections of 1974, the number of constituencies remained the same as before—Mehroni, Lalitpur, Jhansi, Babina, Mauranipur and Garautha, two constituencies of Babina and Mauranipur being reserved for the members of the Scheduled Castes. Instead of Lalitpur, Babina was declared reserved for the members of Scheduled Castes. Fifty-four candidates contested the elections, of whom six each belonged to the Bhartiya Jan Sangh and the Congress (O), five to the Congress, three each to the Bhartiya Kranti Dal, the Rashtriya Loktantrik Sangh and the Socialist party, one each from the Bhartiya Shoshit Samaj Dal, the Communist party, the Forward Block, the Republican party and the Swatantra party and twenty three were Independents. Of the six seats three were won by the Congress, two by the Bhartiya Jan Sangh and one went to the Communist party.

The following statement shows the number of candidates, the seats won and the total valid votes secured by each political party and the Independent at the general elections of 1974 :

After the assembly elections of 1974 the Congress led the State until a political upheaval rocked the party, leading to the resignation of the Congress ministry in November, 1975, followed by the President's rule. The President's rule came to an end in January 1976, when the Congress ministry was again formed in the State. The dismal performance of the Congress in the 1977 general elections to Lok Sabha heralded emergence of the Janta party in power at the centre paving the way for the dissolution of State assembly in May, 1977. The mid-term poll was held shortly after. This election was contested mainly between two parties—the Indian National Congress and the newly emerged Janta party.

For the mid-term elections of 1977, the position of the district remained the same, as regards the number of seats allotted to the district and the number of constituencies. The constituencies were Mehroni, Lalitpur, Jhansi, Babina, Mauranipur and Garautha, two constituencies of Babina and Mauranipur being reserved for the members of the Scheduled Castes. Of these six constituencies, Mehropi and Lalitpur are of the district Lalitpur which was separated from Jhansi in 1974 after the general elections to the assembly. Forty-eight candidates contested the elections of whom six belonged to the Janta party, five to the Congress, one each to the Communist party and the Forward Block and thirty-five were Independents. The Janta party won five seats and the remaining one went to the Congress.

The following statement shows the number of candidates, the seats won and the total valid votes secured by each political party and the Independents at the general elections of 1977 :

TABLE I (d)

The total number of electors in the district in the general elections of 1967 was 6,04,351, the number of those who actually cast their votes was 3,84,553 and the total number of valid votes polled was 3,05,361. The number of electors in the mid-term elections of 1969 was 6,32,476, the number of those who actually cast their votes was 3,63,079 and the total number of valid votes polled was 3,48,512. The number of electors in the general elections of 1974 and 1977 was 7,14,697 and 7,55,889 respectively, the number of those who actually cast their votes was 4,35,853 and 4,14,023 respectively, and the total numbers of valid votes cast was 4,18,292 and 4,03,524 respectively.

Lok Sabha (House of People)

For the general elections of 1967 to Lok Sabha, the district (excluding the Garautha assembly constituency which formed part of the Jalaun reserved parliamentary constituency) was allotted one seat which was contested by four candidates, of whom one each belonged to the Bhartiya Jan Sangh, the Communist party, the Congress and to an Independent. The Congress candidate won the seat.

For the general elections of 1971, there was no change in the position of the district obtaining in 1967, being one single member constituency in the district. Four candidates contested the elections, of whom one each belonged to the Bhartiya Kranti Dal, the Congress (J), the Congress (N) and an Independent. The Congress (J) candidate won the seat.

For the purpose of general elections of 1977, the position remained the same as before. The seat was contested by four candidates, of whom one each belonged to the Bhartiya Lok Dal and the Congress and two were Independents. The Bhartiya Lok Dal candidate captured the seat.

The following three statements show the number of candidates, the seat won and the valid votes secured by each political party and the Independent in the three general elections of 1967, 1971 and 1977 :
